

- 1- ان يملأها بعد انتهاء البرنامج
- 2- ان تكون جاهزه دائما للاطلاع عليها من قبل دكتور الماده والمعيدين والطالب

Lab sheet # 8

Command line arguments, exception Handling

Q1: With the guidance of the program you took in the lecture, write a program that you took divides two floats:

- 1- Use exception handling to handle the exception raised when divide by zero and when entering a non-valid operator**
- 2- Use command line arguments to enter the two numbers and the set of allowed operations**

Program Code:

Run Sample
